-- See DMH Information Notice No.: 08-05 and DMH Information Notice No.: 08-12)

ISSUE:

The draft MHSOAC Review Tool for CSS Housing has been modified according to recommendations made at the May 29, 2008, MHSOAC meeting. This draft review tool has been posted on the MHSA website and is enclosed for your review and approval. Minor revisions have been made to questions two and three to clarify the types of strategies necessary to promote stigma reduction and to clarify the parameters for participation in the Housing program.

A fourth question has been added to ensure that proposed supportive housing developments demonstrate consistency with the counties' approved CSS Plan and that information on the stakeholder process has been included.

Also enclosed for information only is the DMH Housing Review Tool.

Proposed Motion: Adopt the CSS Housing Review Tool
