

ACKNOWLEDGEMENTS

This revision and update to the *California Mental Health Master Plan* is the culmination of the commitment, cooperation, and hard work of many people and organizations. The success and validity of this document would not have been possible without this assistance.

The California Mental Health Planning Council would like to thank the Department of Mental Health (DMH) for providing technical assistance and expertise throughout this process. We would also like to thank the California Mental Health Directors Association (CMHDA) for helping us gather information from various county mental health programs to include in the *Master Plan*.

We sincerely appreciate the assistance provided by the Chief of the DMH Office of Multicultural Services, the DMH Cultural Competence Advisory Committee, and the CMHDA Ethnic Services Managers. Representatives from these groups painstakingly worked with us to infuse cultural competency into the *Master Plan* and to ensure that the *Master Plan* addresses the ethnic, racial, cultural, and linguistic diversity in California.

Finally, we are grateful to all of the individuals in the mental health community who provided comments and feedback during our public hearings to review the *Master Plan*. These comments by members of California's consumer, family member, advocate, and provider communities provided meaning and purpose to this endeavor.
