MOODS/ SELF-HARM Moods/Emotions Subscale (Emotions = anxiety, depression, moodiness, fear, worry, irritability, tenseness, panic, anhedonia) <input type="checkbox"/>	116 Viewed as odd or strange because emotional responses are incongruous (unreasonable, excessive) most of the time. 117 Fears, worries, or anxieties result in poor attendance at school (i.e., absent for at least one day per week on average) or marked social withdrawal (will not leave the home to visit with friends). 118 Depression is associated with academic incapacitation (i.e., absent at least one day a week on average, or made to attend school, does not do work) or social incapacitation (i.e., isolates self from friends). 119 Depression is accompanied by suicidal intent (i.e., really wants to die).	121 Marked changes in moods that are generally intense and abrupt. 122 Depressed mood or sadness is persistent (i.e., at least half of the time), with disturbance in functioning in at least one of the following areas: sleeping, eating, concentration, energy level, or normal activities. If <u>only</u> irritability or anhedonia (i.e., marked diminished interest or pleasure in typical activities) is present, there should be disturbance in two or more areas. 123 Youth worries excessively (i.e., out of proportion) and persistently (i.e., at least half of the time) with disturbance in functioning manifested by at least one of the following: sleep problems, tiredness, poor concentration, irritability, muscle tension, or feeling "wired up". 124 Fears, worries, or anxieties result in the youth expressing marked distress upon being away from the home or parent figures; however, the youth is able to go to school or engage in some social activities. 125 School-age children require special accommodations because of worries or anxieties (e.g., sleeping near parents, calling home). 126 Emotional blunting (i.e., no or few signs of emotional expression; emotional expression is markedly flat).	128 Often anxious, fearful, or sad, with some related symptom present (e.g., nightmares, stomachaches). 129 Disproportionate expression of irritability, fear, or worries. 130 Very self-critical, low self-esteem, feelings of worthlessness. 131 Easily distressed if makes mistakes. 132 Sad, withdrawn, hurt, or anxious if criticized. 133 Sad (or depressed or anhedonic) or anxious in at least one setting for up to a few days at a time. 134 Notable emotional restriction (e.g., has difficulty expressing strong emotions such as fear, hate, love).	136 Feels normal distress, but daily life is not disrupted. 137 Considers self to be an "OK" person. 138 Can express strong emotions appropriately. 139 Experience of sadness and anxiety are age-appropriate.

MOODS/ SELF-HARM Self-Harmful Behavior Subscale <input type="checkbox"/>	142 Non-accidental self-destructive behavior has resulted in or could result in serious self-injury or self-harm (e.g., suicide attempt with intent to die, self-starvation). 143 Seemingly non-intentional self-destructive behavior has resulted in or could likely result in serious self-injury (e.g., runs out in the path of a car, opens car door in moving vehicle), and youth is aware of the danger. 144 Has a clear plan to hurt self, or really wants to die.	146 Non-accidental self-harm, mutilation, or injury which is not life-threatening but not trivial (e.g., suicidal gestures or behavior without intent to die, superficial razor cuts). 147 Talks or repeatedly thinks about harming self, killing self, or wanting to die.	149 Repeated non-accidental behavior suggesting self-harm, yet the behavior is very unlikely to cause any serious injury (e.g., repeatedly pinching self or scratching skin with a dull object).	151 Behavior is not indicative of tendencies toward self-harm.

THESE ITEMS APPLY TO YOUTH OF ALL AGES

SUBSTANCE USE
(Substances = alcohol or drugs)

154 Lifestyle centers on acquisition and use (e.g., preoccupied with thoughts or urges to use substances, cravings for substances, uses in the morning).

155 Dependent on continuing use to maintain functioning (e.g., likely to experience withdrawal symptoms such as feeling sick, headaches, nausea, vomiting, shaking, etc.)

156 Failing or expelled from school related to effects of usage.

157 Fired or losing job related to effects of usage.

158 Frequently intoxicated or high (e.g., more than two times a week).

159 Use of substances results in serious negative consequences (e.g., injured, doing illegal acts, failing classes, experiencing physical health problems).

160 Is pregnant or is a parent and is a drug user.

161 Is pregnant or is a parent and gets drunk or routinely uses alcohol.

162 Has blackouts, drinks alone, or cannot stop drinking once started.

165 Uses in such a way as to interfere with functioning (e.g., job, school, driving) in spite of potential serious consequences (e.g., traffic violations, work or school absences or tardiness, misses out on activities, uses on school days or before work/school).

166 Gets into trouble because of usage (e.g., argues, fights with family or friends, in accident, trouble with teachers, picked up by police, breaks rules, misses curfew).

167 Behavior potentially endangers self or others because of usage (e.g., injury vulnerable to date rape).

168 Friendships change to mostly substance users.

169 High or intoxicated once a week.

172 Infrequent excess and only without serious consequences.

173 Regular usage (e.g., once a week) but without intoxication or being obviously high.

176 No use of substances.

177 Substance use is denied; unable to confirm.

178 Has only "tried" them; does not use them.

179 Occasional use with no negative consequences.

IF YOUTH IS 12 OR YOUNGER, USE THESE ADDITIONAL ITEMS

163 For 12 years or younger, uses regularly (once a week or more).

170 For 12 years or younger, occasional use without intoxication and without becoming obviously high.

174 For 12 years or younger, has used substances more than once.
