

MHSA Behavioral Health
Electronic Health Record (EHR) CPOE Criteria
2nd Draft - Response to Public Comments
© 2007 California Department of Mental Health

Category	Criteria Number	Name	Comment	Action
F-04	4.009			
F-04	4.039	Marty, Bernard	Question: "Do not know what create customized perference list means?" - an unclear term, need clarity on what this infers.	
F-06	6.015			
F-11	11.001	James	Clarify term "sufficient information" ...requirements meet the state board of pharmacy	
F-11	11.002			
F-11	11.003			
F-11	11.004	James	The system should allow authorized staff to sign	
F-11	11.005	James	OTC's...is this mentioned later??	
F-11	11.006			
F-11	11.007	James, Bernard	Is the unique identifier, the NDC number? Group Response: Should coorelate to NDC number.	
F-11	11.008			
F-11	11.009	General consensus	We think 11.009 and 11.010 is duplicate? Lori will check with CCHIT and other sources.	
F-11	11.010	General consensus	We think 11.009 and 11.010 is duplicate? Lori will check with CCHIT and other sources.	
F-11	11.011			
F-11	11.012	General consensus	Needs rewording - "the system should be able to verify the client prescription eligibility". Received, display, store and update eligiilability of electronic prescription.	
F-11	11.013		Same as 11.012, Again add update...	
F-11	11.014			
F-11	11.015	Lori, Marty	Print and electronically fax should be separated into 2 separate functions.	
F-11	11.016	Marty	Print and electronically fax should be separated into 2 separate functions.	
F-11	11.017	Bernard	Need to leave mechanise to record prescriptions via telephone-The system should record that the doctor telephoned in the prescription - A check box.	
F-11	11.018			
F-11	11.019			
F-11	11.020	Marty	Suggests adding calculator same as 11.018 & 11.019	
F-11	11.021			
F-11	11.022	James	Can it also generate a label? Would like to broaden to any medication dispensed	
F-11	11.023			
F-11	11.024	Marty	If county allows prescribed medication not in table with no NDC code.	
F-11	11.028			

Category	Criteria Number	Name	Comment	Action
F-11	11.029			
F-11	11.030	Marty	Good idea	
F-11	11.031	General consensus	Generaic comment...group does needs more specific description. Adding requirement for a link to a fully supported drug information database.	
F-11	11.032	General consensus	Provide a shortcut/profile of a users most commonly used list	
F-11	11.033			
F-11	11.034	Marty	In comments filed add in "And or user-defined database"	
F-11	11.035	Marty	last part is covered in 11.014 - suggest remove "and provide ability to reoder a prior prescription without reentering previous data (e.g.administration schedule, quantity)	
F-11	11.036	General consensus	suggest moving this requirement to first one...needs to be stated earlier	
F-11	11.037		Are there things that we are asking for that may be in violation of this requirement. Capacity to "Become" compliant. Donnelly comment - these requirements may result in bringing the cost of this system so costly that no one can afford it. Suggest language: "The system shall ensure that the it has the ability to be compliant with user defined criteria that is compliant with state, fed regulations to the extent that they are clear and understood in CA. While HIPAA compliance is a base requirement, this requirement is too complex to expect for the vendor.
