

The Department of Mental Health's (DMH) Client and Services Information (CSI) System collects data pertaining to mental health clients and the services they receive at the county level.

A basic principle of the CSI system is that it reflects both Medi-Cal and non-Medi-Cal clients, and services provided in the County/City/Mental Health Plan program. This includes all providers whose legal entities are reported to the County Cost Report under the category Treatment Program and the individual and group practitioners, most of which were formerly in the Fee-For-Service system. These practitioners are individual or group practice psychiatrists, psychologists, Licensed Clinical Social Workers (LCSW), Marriage, Family and Child Counselors (MFCC), and Registered Nurses (RN) as well as the Mixed Specialty group practices.

In county-staffed providers, all clients and services must be reported. In contract providers, those clients and services provided under the contract with the county mental health program must be reported.
